Promotion of Science and Technology through Regional Languages

2122. SHRl MAN MOHAN SAMAL: Will the Minister of HUMAN RESOURCE DEVELOPMENT be pleased to state:

(a) whether Government have received any request from the State Bureau of Text Book Preparation and Production, Orissa for production of two volumes of Glossary on Scientific and Technical books in regional languages;

(b) if so. the details thereof; and

(c) what measures are being taken by Government to promote Science and Technology through regional languages in different States?

THE MINISTER OF STATE INTHE MINISTRY OF HUMAN RESOURCE DEVELOPMENT [DR. (SHRIMATI) RITA VERMA]: (a) and (b) Yes, Sir. In April 2001. the Orissa Stale Bureau of Text Book Preparation and Production made a request to the Commission for Scientific and Technical Terminology for updating scientific and technical terminology in Oriya. The Commission for Scientific & Technical Terminology, (a subordinate office of the Department of Secondary & Higher Education) and the Orissa State Text Book Bureau, working together, identified 14 different subjects in this regard. Various meetings and workshops were held with professors, scholars and scientists. As a result,

one lakh new terms in Oriya were evolved. They are being processed for printing and publishing by the Orissa Text Book Bureau.

(c) Commission for Scientific and Technical Terminology works in cooperation with various State Govemment agencies to promote science and technology in different regional languages. Its aim is to enrich and develop all Indian Languages as mediums of instruction. It has been engaged in the task of evolving technical terms in Hindi, producing university level text books^ definitional dictionaries and various reference literature. So far, S3 definitional dictionaries have been published. The Commission also prepares and publishes monographs, digests and readings, monitors the activities of the Hindi Granth Academies/University Cells in Hindi speaking states, compiles and publishes Pan-Indian technical terms, and a journal of Science in Hindi, the Vigyan Garima Sindhu, with a view to encourage language writing in the sciences.

A total of 5.5 lakhs technical terms have been evolved in different disciplines, such as Basic Sciences, Social Science, Humanities, Technology, Medicine, Agriculture, etc. Over one lakhs terms have been keyed-in and entered into computers.
